I answer a frequently asked question: "Can your structured water help with Coronavirus?" For greater clarity, we are showing you a screenshot of the examination using the "Diagnostics by a living drop of blood" method (variants of the name - "Testing on a dark-field microscope" or "Hemoscanning"). To do this, take a drop of blood, do not stain, do not fix it, put it on a glass slide and study it by looking at the sample on the monitor screen. Under a microscope, you can find a lot of signs of certain diseases. For example, a change in the shape of red blood cells in sickle cell anemia. And you can also see intracellular parasites all in the same erythrocytes, called Bartonellae. And even helminth eggs in the blood can theoretically be found. According to the results of the study, doctors make diagnoses and prescribe treatment.

Left screenshot: shows the primary state of a person's blood (which indicates a "not very good" state of his body at the moment). Right screenshot: after 5 minutes, the effect, after taking 200 grm of water, with negative ORP from -250 mV to -500 mV and pH (9-11 units) from the Ecolid ionizer on human blood, is shown. (This is your Youth, Beauty, Health and Longevity !!!)

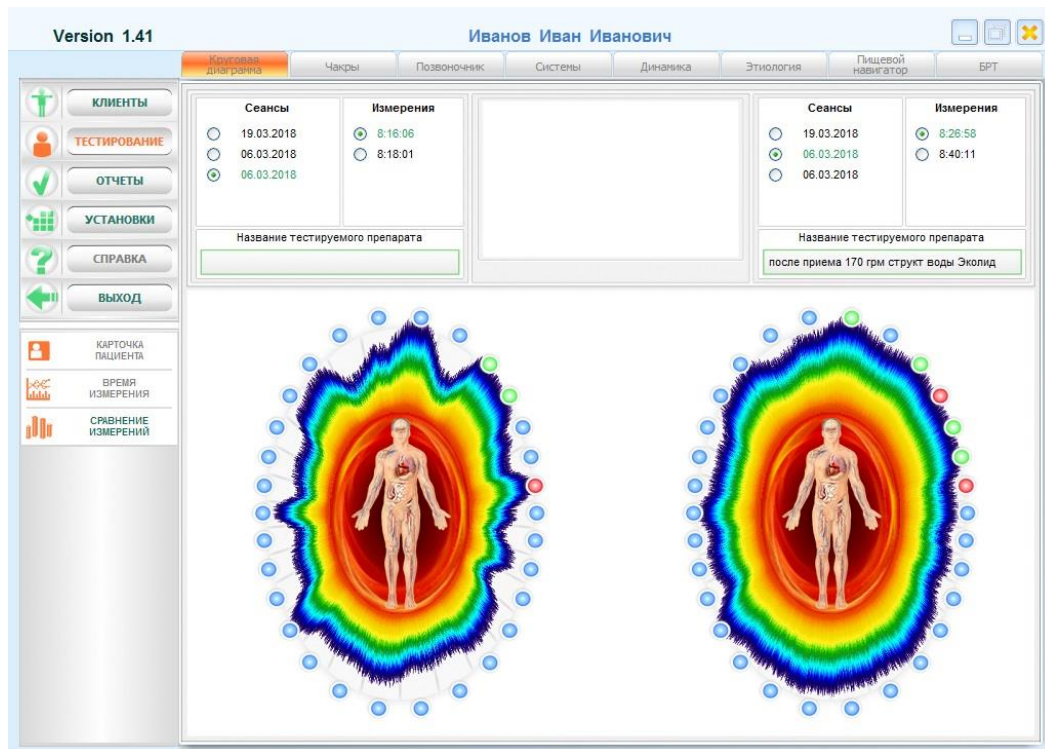

Due to its reducing properties, it normalizes the redox balance in the body and thereby:

- Instantly absorbed by the body and hydrates every cell
- restores energy balance

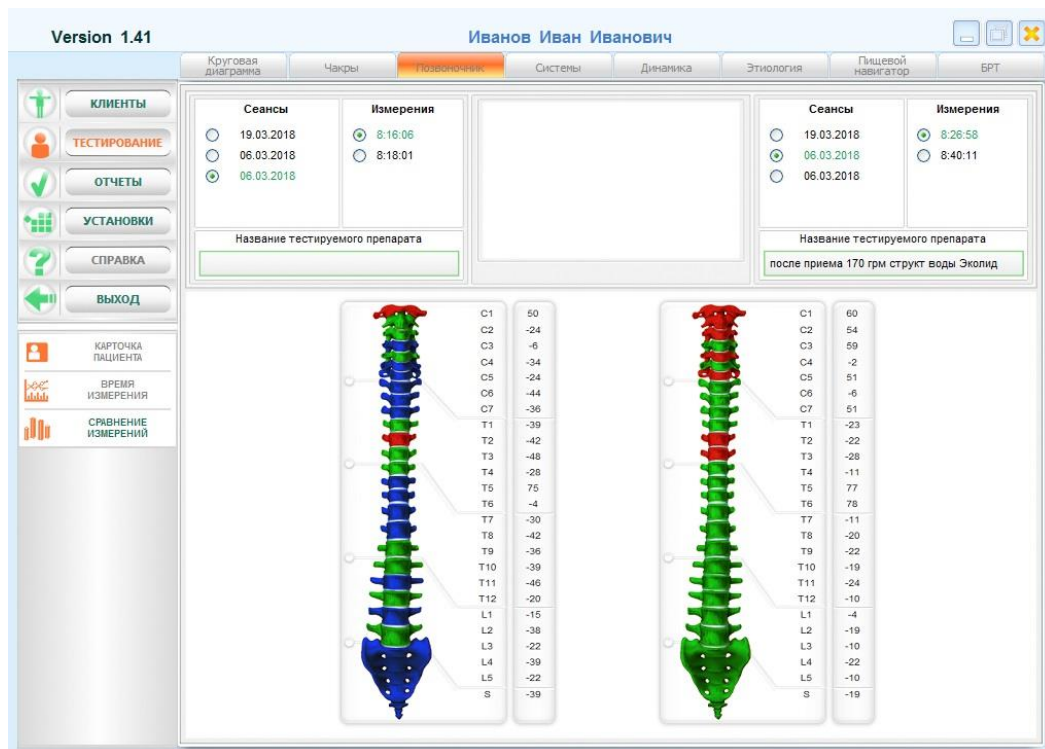

- gives vigor;
- regulates metabolism;
- normalizes blood pressure;
- promotes healing of wounds, burns, ulcers, bedsores;
- has anti-inflammatory properties;
- normalizes the microflora of the gastrointestinal tract by stimulating growth;
- own normal microflora (bifidobacteria and lactobacilli);
- suppresses pathogenic and opportunistic microflora, including Staphylococcus aureus, Salmonella, Shigella (dysentery), Aspergillus, Listeria, Clostridium, Pseudomonas aeruginosa, Helicobacter pylori (which is considered the main cause of peptic ulcer diseases);
- suppresses candidiasis (thrush) in the gastrointestinal tract and mucous membranes;
- restores and activates the immune system in people with weakened immunity and after immunosuppressive therapy, including after exposure to radiation and chemotherapy;
- has powerful antioxidant properties;
- possesses antimutagenic properties;
- restores the detoxifying function of the liver;
- has hepatoprotective properties;
- has high antiviral and virucidal properties against the virus hepatitis C, genital herpes and herpes simplex virus type 1 (better known as "cold on the lips");
- has antiviral and virucidal properties against the influenza A virus, the most common influenza among humans.

.....

Results of drinking water from an ionizer or Ecolid installations. I am sharing with you my results, which I received by conducting a 30-second test of my body on the Imperstar device. An example of the effect of structured water on my body. The screenshots of the test show the state of my body: the first test at 8:16:06 and the second 10 minutes later at 8:26:58, after taking 170 grams of structured water from the Ecolid installation. On the first sample, you can see the Pie chart "Aura" simply torn like a "hedgehog" (the state of imbalance of the whole organism is bad), and on the second sample, we see the restoration of the "Aura" to the size of a dense pattern along the contour (the state of the organism to resist harmful environmental factors. Save your health, your youth. This is great !!!)

The second screen with the spine. The relatively healthy spine is Green on the test. Blue color indicates dehydration of the body and a number of problems (including chronic ones). In this example, we see how, without physical impact on the spine, only taking 170 grm of our water, there is a launch of dormant reserves, adaptation, restoration of the normal functioning of organs.

The third screen shows an example with Chakras: this is before taking 170 grm of

structured water

Version 1.41 Иванов Иван Иванович

Круговая диаграмма Чакры Позвоночник Системы Динамика Этиология Пищевой навигатор БРТ

8:16:06

Сахасрара

Связь с органами:
эпифиз.

Связь с телами:
духовное тело.

Проявление дисбаланса:
депрессия, ограниченность, самосозерцание, беспокойство, психоз.

Цвет: фиолетовый

Камень: прозрачный кварц.

Баланс:
восприятие энергии Вселенной и Космоса. Космическое сознание и любовь, просветленность.

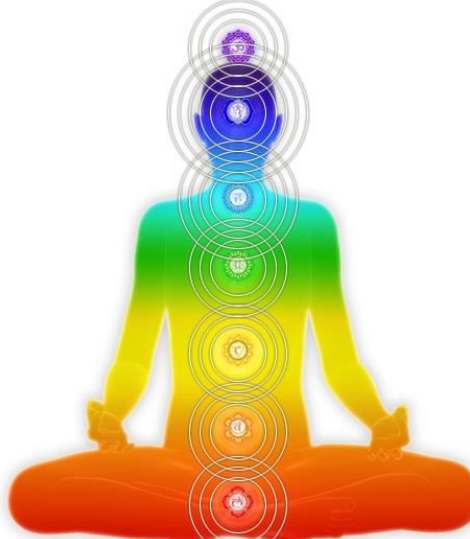

Источник питания чакры:
гравитационное поле Вселенной.

This is after taking 170 grm of structured water "Ecolid":
